

Senior Product Designer with 6+ years of experience designing complex digital products across banking, telecom, and consulting, leading end-to-end product design from discovery to delivery.

Experience

Senior Product Designer // Vakıfbank

Oct 2022 - Present

One of Turkey’s largest banks, serving **14M+** customers.

- Led redesign initiatives across retail banking, internal enterprise platforms, and branch operations, including payments, accounts, cards, stock trading, and loan management.
- Improved navigation directness for the payments experience from **49% to 84%** through tree testing with 80 participants.
- Increased loan application task completion from **79% to 91%** through iterative usability testing with 24 participants.
- Simplified the branch inspection workflow for bank auditors from 12 to 8 screens while maintaining task completion.
- Designed an enterprise AI platform enabling internal teams to create datasets, manage labeling workflows, and support ML model training.

UX Lead (Product Designer) // Vodafone

May 2021 - Oct 2022

Leading telecom operator, serving **25M+** users.

- Led end-to-end product design for Vodafone’s Upgrade and Mobile Acquisition journeys within a cross-functional squad.
- Redesigned Upgrade journeys, increasing My Rewards KPIs by **104% MoM**, driving **12%** first-time feature adoption, and improving add-on purchase volume by **11%**.
- Raised new line application success by **24%** by redesigning Mobile Acquisition journeys.
- Designed a B2B acquisition flow enabling businesses to purchase up to 50 mobile lines in a single application.
- Validated homepage navigation improvements through A/B testing, increasing click-through rate by **16%**.
- Led end-to-end product design for Red Bulut, a B2B solution discovery platform, from discovery to MVP launch in collaboration with external UX research agencies.
- Led design of Kırmızı Işık, a mobile safety app developed by Vodafone Foundation to support women experiencing domestic violence.

UX Designer & Researcher // Userspots

June 2019 - May 2021

UX consultancy serving 200+ clients across finance, telecom, e-commerce, healthcare, and insurance. Selected projects:

Mavi (Global fashion retailer, 34 countries)

Led UX research for Mavi’s e-commerce redesign, conducting user and store staff interviews, benchmarking 162 brands, and presenting findings to stakeholders. Co-designed **11 key shopping journeys**.

Türkiye Finans (Participation bank)

Facilitated stakeholder interviews, proto-persona workshops, and journey mapping to define product direction, then owned the dashboard, profile, credit card management, and payment journeys within a three-designer team.
